TROUBLE SOON SUPPRESSED

While the choir and the majority of those present at the celebration of Emancipation day anniversary, observed in the African M. E. church last evening, were singing and otherwise participants in the services, it is said that there was a lively scrap going on in the rear part of the church.

Razors and knives, it is said, were flourished and for a short time there were indications of a bloody battle. An eye witness stated today that it was all due to jealousy on the part of a young colored fellow, known as Charles Lewis, who shines shoes on Sixtn street.

The informant further stated that. Creighton Nasn, employed at Danley's barber shop on Washington street was the defendant in the trouport from the special committee and ble. ANNOUNCEMENT TO INVESTORS

Mine La Motte Lead & Smelting Company owns 37,611 acres of ground located in Madison and St. Francois Counties, Southeastern Missouri. Of that total 13.511 ACRES ARE KNOWN TO BE HEAVILY MINERAL-IZED. Only 20 acres have been developed by underground workings, and about 67 acres have received attention on the surface.

.The mines are producing today, under very limited operation, more than \$150,000 a year. The present management is now installing machinery and improvements that will swell this annual output to AT LEAST \$500. 000. Present shafts and drifts place in sight ore enough to tax all available machinery for centuries. Eliminating from the calculation all revenue from agricultural, timbering and miscellaneous sources, the property will earn a sum ample to pay immease dividends annually on the capitaliza-

Investment in such a proposition as this does not in any sense border upon speculation. Stock in this corporation is as carefully protected as a Government bond. Since it is offered to you at a figure considerably below par, you can be assured of several times the ordinary rate of income.

Mine La Mott has been for more than a century one of the most famous lead producers in the country. It is the only mine today producing and shipping Nickel and Copalt regularly. Its "Anchor Brand" of Pig Lead has been the standard of the market for years.

The estate, mine and plant have been under private ownership and control until now. From this time forward the output of the property will be increased as rapidly as modern machinery and methods can be installed to do it. Present carnings assure annual dividends of at least 8 per cent on par, and inside of six months this will be doubled.

A small block of stock is herewith offered for sale at \$7.50 per share (par value \$10). The amount put out at this figure will be limited. Immediate investors can make good profit, both on income and on rise in value of stock.

A large number of representative Ohio investors have already made careful inspection of property and plant. We will place you in touch with them, or if you or any of your friends will undertake to defray all expense incident to same. We shall ask youto do no business with us unless you may be absolutely satisfied as to thesafety, integrity and profit of this in

SOME NEWS IN BRIEF.

Ground has been broken for the \$80,000 car shops and roundhouse at New Castle Junction, Pa., for the Baltimore and Ohio railroad.

Fire at Clarksburg, W. Va., dam aged the dry goods store of the Hendrickson company to the extent of \$3,000. Insurance will cover the loss.

Samuel Byerly, a carpenter, living near Bradenville, Pa., thinks he has at last successfully solved the problem of aerial navigation. He says his machine will embrace some new ideas. The motive power will be electricity. Fred Peiffer, late of Homestead and now of the new plate mill of the Cambria Steel company, at Johnstown, Pa., is very ill at the Cambria hospital of blood poisoning, the result of a knife wound while cutting a piece of rubber several days ago.

Dr. Henry McCook, for 33 years pastor of the Tabernacle Presbyterian church, Philadelphia, resigned. He was too ill to announce the fact and sent a letter which was read to the congregation. Failing health is the reason given.

The fires of the Lawrence and Shenango glass factories, of New Castle, Pa., will be lighted tomorrow and the plants will both begin operations on Oct. 15.

BOARD OF EDUCATION Discusses the Matter of Making Outsiders Pay Tuition in

the City. A 35-minute session of the board of education was held last evening in the Ninth street school building. P. H. v. nite, president, presided. Several bills were read and ordered paid.

Supt. J. L. McDonald stated that he had no report to make. When asked by White how the new teachers were getting along he said: "As far as I can see, all of the new teachers are doing nicely.'

Following this brief verbal report Dr. Hutchinson brought up the matter of compelling all students in the schools who reside outside the city limits to pay tuition. Some of these COES TO AKRON do not pay. Those who pay regularly sol olars are paying tuition, but several are objecting because the others do not pay. Prof. McDonald last evening the sick list. ANNOUNCEMENT TO INVESTORS

Mine La Motte Lead & Smelting Company owns 37,614 acres of ground located in Madison and St. Francois Counties, Southeastern Missouri. Of that total 13,544 ACRES ARE KNOWN TO BE HEAVILY MINERAL-IZED. Only 20 acres have been developed by underground workings, and about 67 acres have received attention on the surface.

The mines are producing today, under very limited operation, more than \$150,000 a year. The present management is now installing machinery and improvements that will swell this annual output to AT LEAST \$500. 000. Present shafts and drifts place in sight ore enough to tax all available machinery for centuries. Eliminating from the calculation all revenue from agricultural, timbering and miscellaneous sources, the property will earn a sum ample to pay immense dividends annually on the capitaliza-

Investment in such a proposition as this does not in any sense border upon speculation. Stock in this corporation is as carefully protected as a Government bond. Since it is offered to you at a figure considerably below par, you can be assured of several times the ordinary rate of income.

Mine La Mott has been for more than a century one of the most famous lead producers in the country. It is the only mine today producing and shipping Nickel and Copalt regularly. Its "Anchor Brand" of Pig Lead has been the standard of the market for years.

The estate, mine and plant have been under private ownership and control until now. From this time forward the output of the property will be increased as rapidly as modern machinery and methods can be installed to do it. Present carnings assure annual dividends of at least 8 per cent on par, and inside of six months this will be doubled.

A small block of stock is herewith offered for sale at \$7.50 per share (par value \$10). The amount put out at this figure will be limited. Immediate investors can make good profit, both on income and on rise in value of stock.

A large number of representative Ohio investors have already made careful inspection of property and plant. We will place you in touch with them, or if you or any of your friends will undertake to defray all expense incident to same. We shall ask youto do no business with us unless you may be absolutely satisfied as to thesafety, integrity and profit of this in

Any disease which impairs the normal working of the stomach is certain to bring on a state of nervousness. On the other hand, a remedy which aids digestion and tones up the stomach is a sure cure for nervousness. For this reason BLOOD WINE is the most popular nerve tonic sold. Mrs. Jennie Wilson, corner of Market and Parker Streets, Lawrence, Mass., says: "I have been troubled with nervousness and dyspepsia for five years. Medicine did me no good until a friend advised BLOOD WINE. Have taken three bottles and am entirely cured."

The project of making the Ohio ern Theological river navigable at all seasons has secured a strong and able championnone other, in fact, than President Roosevelt. The recent agitation of alertness and viligance of the people's interests required no such stimulus. At all events, it is certain that any reasonable bill that gets through congress appropriating money for the work which so many people desire to see hastened will receive the official sanction of the executive. In his presented the case of the river improvement champions as logically, forcibly and convincingly as the oldest and ablest of them could have done. He said: "Our government is a practical exemplication of the great principle of each for all and all for each. The whole country is benefited by whatever benefits one part. This valley of the Ohio, this valley which includes the drainage basins of portions of some 13 states, is one of the great seats of the future industry, not only of this country, but of the world, and it is to the interest of all the country to see you prosper. You will prosper even more than at present, as the great waterways are made more accessible to larger vessels from here to the gulf, and that will take place coincidentally with the beginning of the great work which is to connect the Pacific and the Atlantic with an isthmian canal--a work destined to be one of the giant performances, one of the giant material works of the twentieth century-a work surpassing in magnitude anything of the kind that has ever before been attempted in the history of mankind." Here is the best possible encouragement for the riends of improved navigation. It remains only for them to demonstrate what is practicable and necessary and get the approval of congress, in order to carry out the great undertaking in the shortest possible time. The present is an auspicious time for beginning such a work. No portion of the Treasury surplus could be used for any purpose better calculated to benefit a greater number of people. Let the agitation for an improved river proceed. The people of the Ohio valley have only to show that they are united and in earnest and their efforts will

REV. DR. WM. J. REID DEAD.

Victim of Pneumonia-Editor of United Presbyterian-Pastor Over 40 Years of a Pittsburg Church.

Pittsburg, Sept. 23.-The Rev. Dr. W. J. Reid, the nestor of United Presbyterianism in Western Pennsylvania, bon and the venerated pastor of the First United Presbyterian church, died at 11:50 yesterday, after a brief illness. In no wise prepared for his death by his sudden illness of Saturday, his demise is a distinct shock to the entire city. He died of pneumonia.

His congregation was so worried day evening service was not held Sunday night.

For a number of years past Dr. Reid has not been in robust health. A year or more ago his son, W. J. Reid Jr., was made assistant pastor of the church, with the express idea has accepted a position with Mrs. E. of relieving his father of some of the M. Leasure, Fifth street. more operous of his pastoral duties. Last spring Dr. Reid was in very feeble health, and his family were very anxious over his condition. However, he recovered, and for a few months past has been strong.

Sketch of His Career.

William James Reid was born in South Argyle, Washington county, N. Y., on Aug. 17, 1834, and was consequently just past his sixty-eighth college in 1854 and came to the West spent on business in this city. theology. He was licensed in 1861 and ordained in 1862, and was immedi ately called to the First United Presbyterian church, of Pittsburg. He had been pastor of that church ever the matter may have influenced him since, and passed his fortieth year to atterance; or it may be that his of service last April. He was secre burg tary of the board of home missions from 1868 until 1872 and was chairman of the committee to prepare the digest in 1875. He had been principal stated clerk of the United Presby- home. terian general assembly for more than 25 years, starting in that capacity in 1875. Last spring, when the general assembly met in Allegheny. speech at Cincinnati the president Rev. Dr. Reid's health was very poer. and he wished to resign his position. He tendered his resignation, but the assembly would not accept it, and he still held the position. His services to the United Presbyterian church have always been notable, and he was regarded as one of the braini est men in the denomination. For eight years Dr. Reid had been editor of the United Presbyterian, and for 15 years had been teacher of the Saturday Bible class at the Y. M. C. A. rooms. He had published several works, her new grandson, at the home of Mr. among them, "Unseen Battles of and Mrs. Albert Mason. Youth," a sermon; "The Nation's Duty to the Nation's Dead," a sermon; "Lectures on the Revelation" and "United Presbyterianism."

Discusses the Matter of Making Outsiders Pay Tuition in the City.

A 35-minute session of the board of education was held last evening in the Ninth street school building. P. H. v. nite, president, presided. Several bills were read and ordered paid.

Supt. J. L. McDonald stated that he had no report to make. When asked by White how the new teachers were getting along he said: "As far as I can see, all of the new teachers are doing nicely."

Following this brief verbal report.

Dr. Hutchinson brought up the matter of compelling all students in the schools who reside outside the city limits to pay tuition. Some of these set olars are paying tuition, but several COES TO AKRON do not pay. Those who pay regularly are objecting because the others do not pay. Prof. McDonald last evening the sick list. ANNOUNCEMENT TO INVESTORS

TUESDAY, SEPTEMBER 23, 1902.

Mine La Motte Lead & Smelting Company owns 37,614 acres of ground located in Madison and St. Francois Counties, Southeastern Missouri. Of that total 13,544 ACRES ARE KNOWN TO BE HEAVILY MINERAL-IZED. Only 20 acres have been developed by underground workings, and about 67 acres have received attention on the surface.

The mines are producing today, under very limited operation, more than \$150,000 a year. The present management is now installing machinery and improvements that will swell this annual output to AT LEAST \$560,-000. Present shafts and drifts place in sight ore enough to tax all available machinery for centuries. Eliminating from the calculation all revenue from agricultural, timbering and miscellaneous sources, the property will earn a sum ample to pay immease dividends annually on the capitaliza-

Investment in such a proposition as this does not in any sense border upon speculation. Stock in this corporation is as carefully protected as a Government bond. Since it is offered to you at a figure considerably below par, you can be assured of several times the ordinary rate of income.

Mine La Mott has been for more than a century one of the most famous lead producers in the country. It is the only mine today producing and shipping Nickel and Copalt regularly. Its "Anchor Brand" of Pig Lead has been the standard of the market for years.

The estate, mine and plant have been under private ownership and control until now. From this time forward the output of the property will be increased as rapidly as modern machinery and methods can be installed to do it. Present carnings assure annual dividends of at least 8 per cent on par, and inside of six months this will be doubled.

A small block of stock is herewith offered for sale at \$7.50 per share (par value \$10). The amount put out at this figure will be limited. Immediate investors can make good profit, both on income and on rise in value of stock.

A large number of representative Ohio investors have already made careful inspection of property and plant. We will place you in touch with them, or if you or any of your friends will undertake to defray all expense incident to same. We shall ask youto do no business with us unless you may be absolutely satisfied as to thesafety, integrity and profit of this in

At all events, it is certain that any reasonable bill that gets through consess appropriating money for the work which so many people desire to see hastened will receive the official sanction of the executive. In his speech at Cincinnati the president Rev. Dr. Reid's health was very poor, presented the case of the river improvement champions as logically, forcibly and convincingly as the oldest and ablest of them could have done. He said: "Our government is a practical exemplication of the great principle of each for all and all for each. The whole country is benefited by whatever benefits one part. Here is the best possible encouragement for the friends of improved navigation. It remains only for them to demonstrate what is practicable and necessary and get the approval of congress, in order to carry out the great undertaking in the shortest possible time. The present is an auspicious time for beginning such a work. No portion of the treasury surplus could be used for any purpose better calculated to benefit a greater number of people. Fire at Clarksburg, W. Va., dam aged the dry goods store of the Hendrickson company to the extent of \$3,000. Insurance will cover the loss.

Samuel Byerly, a carpenter, living near Bradenville, Pa., thinks he has at last successfully solved the problem of aerial navigation. He says his machine will embrace some new ideas.

The motive power will be electricity. Fred Peiffer, late of Homestead and now of the new plate mill of the Cambria Steel company, at Johnstown, pital of blood poisoning, the result of a knife wound while cutting a piece of rubber several days ago.

Dr. Henry McCook, for 33 years pastor of the Tabernacle Presbyterian church, Philadelphia, resigned. He was too ill to announce the fact and sent a letter which was read to the congregation. Failing health is the reason given.

The fires of the Lawrence and Shenango glass factories, of New Castle, Pa., will be lighted tomorrow and the plants will both begin operations on Oct. 15.

PRAISED CANADIAN RECIMENT.

Complimented the Commanding Officer on the Appearance of His Men. Rode Into Canadian Territory While on Steamer Ride.

Detroit, Sept. 23.-President Roose velt's two days' visit to Detroit came to an end last evening, at the conpletely by surprise, but soon arranged Light Guard armory by the Spanis's clusion of a banquet tendered him ia for the entertainment of her guests. war veterans. It was a brilliant event. About a dozen couples were present. Nearly 800 men sat at tables on the Alfred Beach and Howard Osborne floor of the big armory, and the galindulged in a pie-eating contest, caus- leries were crowded to their utmost ing much amusement. Mr. Beech was capacity by brilliantly gowned women and their escorts. The armory was decorated in green and white maple branches and electric lights were everywhere.

When the president rose to begin his address, which was the first of the evening, he received an ovation. The men on the floor stood up and cheered again and again, while the clapping of hands from the gallery was like

President Participated In Parade.

The president returned at 3 o'clock and participated in the parade of the Spanish war veterans, which he later New reviewed. He was given a great popular ovation during the entire afternoon. The greatest crowds ever seen in the city lined the streets through which the parade passed, and a great wave of thunderous cheers swept drove by. Excursions brought thousands from nearby towns. For what is believed to have been the first time in the history of the country, a presi dent of the United States yesterday afternoon reviewed a regiment of session of sufficient facts in regard to British troops. The Twenty-first Essex Fusiliers participated in the pa- Philadelphia80 51 rade by the special permission of this government and the Canadian militia department.

At the banquet last evening the president called Lieutenant Colonel Washington57 74 pearance of his command, which received a veritable ovation on the linof march.
